Contact Us About Emergency Response to the Gold King Mine Release form

Hello,

The US EPA has prepared the following information resource:

EPA is committed to working closely with response agencies and state and local officials to ensure the safety of citizens, respond to concerns and to evaluate impact to water contaminated by the Gold King Mine Release. EPA is sharing information as quickly as possible with the public as experts work to evaluate any effects the spill may have on drinking water, public health, agriculture, fish and wildlife. Please see our website for the latest information: <http://www2.epa.gov/goldkingmine>
Regular updates will be posted as they are available.
EPA Hotline: 844-607-9700 (toll-free)

Comments:

We are interested in being considered as a clean up process company for the mine waste release in Colorado. Earth Renaissance Technologies is based in Salt Lake City and has a treatment process that captures heavy metals from water. The equipment and facilities are portable and can be transferred from site to site. The ERT system is adaptive and can go all the way through complete acid/base, reduction/oxidation as may be required. When the time is right, we would like to talk to a cleanup contractor. Thank you for any direction or contacts you can provide.

Best Regards,

Jim Olson
